PROFESSIONAL SUMMARY

Motivated and detail-oriented Computer Science and Engineering graduate (2026) with a solid foundation in Java, Spring Boot, and full-stack web technologies. Passionate about building scalable and efficient applications. Eager to contribute to impactful software projects and grow professionally in a challenging Java development role.

TECHNICAL SKILLS

Core Language: Java (OOP, Collections, Exception Handling, File Handling, Multithreading basics, JDK 8)

Web Technologies: HTML, CSS, JavaScript (Basics)

Frameworks & API's: Spring Boot, Spring MVC, REST API's, Spring Data JPA

Database: SQL (MySQL)

Tools & IDEs: IntelliJ IDEA, Eclipse, VS Code, Git, GitHub

Learning Technologies: React JS

Architecture: Microservices

PROJECTS

Fitness Management System | *Full-Stack Web Application*

- Designed and developed a full-stack fitness management web application to help users manage home-based fitness and diet plans tailored to personal goals and budgets.
- Implemented personalized workout category modules and budget-based diet planning features.
- Integrated a calorie calculator and meal reminder system to enhance user engagement and goal tracking.
- **Technologies used:** Java, Spring Boot, MySQL, HTML, CSS and JavaScript

Website Phishing Attack Detection Using Innovative Meta Learning-Based Ensemble Approach

- Built an automated cybersecurity solution to detect evolving phishing websites with higher accuracy than static rule-based systems or standalone ML models.
- Developed a hybrid stacked ensemble model combining an Artificial Neural Network (ANN) for global non-linear pattern recognition and a Bagging KNN Classifier for local pattern extraction, with Logistic Regression as the meta-learner for final prediction.
- Optimized class distribution using SMOTE oversampling and implemented K-Fold cross-validation to improve model generalization and prevent overfitting.
- Designed user and admin modules enabling real-time URL/email scanning, prediction confidence scoring, and performance reporting.
- **Technologies used:** Python, Machine Learning (ANN, KNN, Logistic Regression), SMOTE

EDUCATION

Bachelor of Technology – Computer Science & Engineering
Vaagdevi College of Engineering, Telangana | 2022–2026 | CGPA: 7.11

Intermediate (MPC)
TSWRS/JC (Boys), Etunagaram | 2020–2022 | CGPA: 7.9

Secondary School Certificate (SSC)
ZPPS, Thimmampeta | 2020 | CGPA: 9.8

LANGUAGES

English | Telugu

DECLARATION

I hereby declare that all the information furnished above is true and correct to the best of my knowledge and belief.
